

Young Nails Australia

The Red Gel Layer

Therese Kulbicki Senior Mentor

STEP 1: Push back cuticles with Magic Wand
Remove excess keratin from nail plate,
using the Young Nails' diamond cone bit, ensuring
excellent adhesion. Lightly etch entire nail plate with
150/150 grit file. Apply two coats of Protein Bond.

STEP 2: Place form in correct position. Apply
a thin coat of Synergy Base Gel over entire nail plate
floating the Base all the way to the tip of the
form. Cure for 2 minutes minimum. (36w UV lamp).

STEP 3: Apply Reverse Bead of Frosted Pink
Sculptor Gel using a floating motion. Float the
weight of the bead towards the smile line,
swoop brush around the front of the bead
to create a Wall. Cure for 2 minutes. Remove
sticky residue with Swipe. File smile line
perfect with your Diamond File.

STEP 4: Using Kaleidoscope Black Gel Paint gently push colour up against the smile line, ensuring you have colour right up into side walls and all the way to the tip of the form. DO NOT CURE.

STEP 5: Using a toothpick dip into Kaleidoscope Red Gel paint only using the tip of the toothpick. Lay the Red Across the Black gel paint in a Zigzag motion. DO NOT CURE!

STEP 6: Using a toothpick dip into Pink Gel mix (5 parts white Kaleidoscope gel paint to 1 part Kaleidoscope red gel paint. Add ¼ a scoop of Frosted pigment powder and small amount of Flex Gel combine on mixing tile.) Only using the tip of the toothpick. Lay the pink Across the Red gel paint in a Zigzag motion. Cure for 2 minutes.

STEP 7: Using the sticky residue left on the surface Of the nail to gently & carefully push Illum Royal Red Glitter onto the Red gel areas. Use Las Vegas Pinkie for the pink Gel areas, push glitter into sticky residue until smooth.

STEP 8: Cap entire Design with Synergy Build Gel, floating up against reverse wall & down to tip of form. Flip the finger over for 3 seconds to level Gel to the smile line. Cure for 2 minutes.

STEP 9: Remove sticky residue with swipe.
Electric File into shape using I-Formation technique.
Complete with 150 Zebra hand file & Swipe.
Apply Finish Gel and Cure for 2 minutes. Apply Rose oil.

STEP 10: The Finished Product WOW!!!

Here at Young Nails we love our Gel!

Why?

If it's an overlay or extension, stiletto or Square, French or art design we have a Gel System for the job! There is a place in every salon for both Soft and Hard Gel Systems that's why we offer both, plus the Kaleidoscope gel paint system which compliments both and can be used when doing Young Nails Acrylic designs!

Our Synergy Hard Gel System offers Superior Strength & Flexibility that will enable you to create the ultimate extension. Our Reverse Application Techniques will provide foolproof perfect smile lines.

Our Mani-Q soft Gel System offers Natural Overlay's, Amazing Glitter Toes & Spa Manicure Design Nails. This application is so easy you could almost do it with your eye's shut!

Young Nails Gel is simple to use & a pleasure to teach, that's why we offer classes in all our techniques. Education, Customer service & Technical Support are our passion. We specialise in time saving techniques and great designs guaranteed to please.

For more information & to see more Young Nails step by steps go to www.youngnails.com.au or contact Young Nails on 1300 766 121 or info@youngnails.com.au

It's all about you!
